

An ecosystem where ProTraders gain a unique trading toolset and investors achieve investment results equal to those of the best experts.

FOR TRADERS

Revolutionary trading terminal that provides most innovative trade features and all the liquidity the crypto exchanges has to offer

PROBLEM SOLVING

1. Tackling with various web applications to trade on several exchanges at the same time
2. Lack of funds to realize trading potential
3. High transaction costs due to fragmented crypto markets

VALUE

1. Direct Market Access (DMA) trade terminal on all major crypto currency exchanges for **FREE**
2. Earn up to several times more just by showing up your trade performance to other investors to follow
3. Ensures liquidity where it is needed and additional savings on trade fees through transactions consolidation

FOR INVESTORS

Service that offers investors the opportunity to follow strategies used by the top-rated professional traders using **Tradelize.score** – the unique database and ranking system containing **100%** verified performance results

PROBLEM SOLVING

1. Tackling with various web applications to trade on several exchanges at the same time
2. Lack of funds to realize trading potential
3. High transaction costs due to fragmented crypto markets

VALUE

1. Getting superior investment results by following the trades and strategies of professional traders
2. High speed and transparency of operations, the results of which are reflected at the blockchain
3. Securing the protection of cryptoholders from theft and fraud

Our business model is to allocate **80%** of the funds collected via the ICO to engage the most successful traders and create the most effective investment and asset management approaches. During the ICO period, the top ranks of **Tradelize.score** will be filled with the best ProTraders, who will be given up to **\$500K** to manage in order to develop the best strategies and trades and deliver the best opportunities to future investors.
